County Criminal.

Most felony and misdemeanor cases are filed in county courts, so county criminal record searches are one of the most powerful sources for uncovering criminal records. County criminal searches return information from the court records in which the conviction is recorded. A report covering county criminal records may include information regarding the degree of the offense, offense dates, case numbers, filing dates, defendants, counts, trial dates, verdicts, disposition, disposition dates, and sentencing information. Additional court fees may apply. Average turnaround time is 1-3 business days - some exceptions apply such as limited access courts, which may result in extended delays.

Federal Criminal.

A federal criminal search is conducted by ordering individual US District Court indices in much the same way as a county criminal history. You can specify which district you want to search and we retrieve records from that district. Alternatively, our auto development process can instantly recommend the federal jurisdictions. The recommendations are derived from a social security number based name and address history we run and present in real-time at no cost to you while you are entering the subject's information on the order screen. Additional courthouse fees may apply.

USoneSEARCH.

With our US OneSEARCH, you can comb more than 500 million criminal records from counties, department of corrections (DOC), administrative office of courts (AOC), and offender registries from all 50 states, plus Washington DC, Guam and Puerto Rico. Also included are national and international terrorism sources and more than 10 million photos. A US OneSEARCH check provides the data you want, the quality you demand and the updates that ensure you get the best possible information.
